Summary

Versatile individual with experience collecting, transforming, and organizing data for analysis to help make data-driven decisions. Understanding and proficiency in platforms for effective data analyses, including SQL, Python, PowerBI, spreadsheets, Tableau, and R. Strong organizational, and analytical skills. Recently completed the Google Data Analytics Certificate – a rigorous, hands-on program that covers the entire scope of the data analysis process. I enjoy the most working with Python in Jupyter Labs and visualizing data in PowerBI. I am currently taking courses in data science to enhance my knowledge of data analytics.
